Homeowner Tips - SATELLITE DISHES

SATELLITE DISH REMOVAL

Satellite dishes no longer in use become an eyesore in our community, as most local cable TV providers will not remove old dishes when accounts are closed. Individual owners are responsible and required to have any non-functioning dishes removed from their units, including mounting hardware. Please dispose of old satellite dishes at any Bonner County transfer station, NOT in our neighborhood dumpster.

Dishes mounted on exterior SIDING:

Can be removed by owner or professionally. Remove all mounting hardware and brackets, as well. Connection holes are to be caulked & sealed and surface area is to be repainted with matching exterior paint. Contact the **ARC** for more guidance on this project and to obtain approved matching paint.

Dishes mounted on ROOFS:

Dishes mounted on roofs must be PROFESSIONALLY removed & roofing materials properly restored by a qualified roofing contractor, at the owners expense. C&R Labor (509-202-3629) is one vendor we recommend for this job.

Thank you.
